About us

Forever Legal is a property specialist law firm. We have completed over 10,000 re-mortgage transactions in Equity Release and work with several large adviser firms and large blue-chip lenders.

We have built a reputation for delivering a first-class service and processing proposition. We are a hybrid legal tech business which at its core has customer service embedded throughout.

We are a service disruptor which challenges the market to improve service levels and incorporate technology to bring it up to date.

We believe the option of a face-to-face visit by a qualified solicitor and the client update process is unique in this space and is a service that will enhance your business.
